

COOKTOWN *Botanic Gardens* & NATURE'S POWERHOUSE

Old Flower Beds 1892
At this time the garden was intensively developed and lawns, garden beds, stone lined paths and stone-pitched pools were established

AUSTRALIAN NATIVES

Solander Section
This section is dedicated to the botanists Banks and Solander and features many of the plants they collected in 1770

Society for Growing Australian Plants Garden
This garden is maintained by the society dedicated to the preservation and propagation of native flora
